

csquotes Tutorial

Benno Klabuster

26. Januar 2019

Zusammenfassung

This is the typeset version of `csquotes-tutorial-utf8.tex`. There is nothing fancy to see here. The tutorial you are looking for consists of a series of comments which are included in the source.

The current language is `ngerman`. Das ist ein „Zitat“.

1 Basic quotations

1.1 english

- Ex. 1** “outer quote ‘inner quote’ outer quote”
(`\enquote{outer quote \enquote{inner quote} outer quote}`)
- Ex. 2** ‘inner quote’
(`\enquote*{inner quote}`)
- Ex. 3** “outer quote”
(`"outer quote"`)
- Ex. 4** “outer quote ‘inner quote’ outer quote”
(`«outer quote «inner quote» outer quote»`)
- Ex. 5** “outer quote ‘inner quote’ outer quote”
(`\enquote{outer quote «inner quote» outer quote}`)
- Ex. 6** “outer quote ‘inner quote’ outer quote”
(`"outer quote \enquote{inner quote} outer quote"`)

1.2 ngerman

- Ex. 1** „Zitat ,Zitat im Zitat‘ Zitat“
(`«Zitat «Zitat im Zitat» Zitat»`)
